Sir:

RESPONSE TO OFFICE ACTION

Applicants are in receipt of the Office Action dated January 10, 2006 of the above-referenced application. Applicants respond to the Office Action as follows.

Claims 1-10 are pending in the application.

As recited in independent claims 1 and 10, Applicants' claimed invention is directed to an image forming apparatus including a sheet eject mechanism that holds a sheet therein at an initial position, and moves "from the initial position to the sorting position with a sheet held therein" (claim 1, emphasis added). After ejecting the sheet at the sorting position, the sheet eject mechanism returns from the sorting position to the initial position without a sheet held therein.
